61840-F Type K Digital Thermocouple Clipboard Instrument

The 61840-F Clipboard with Thermocouple Jack is designed to meet the needs of a fast, accurate and convenient measuring system. The thermometer jack embedded in the clipboard will work with any Type K thermocouple probe. Simply plug the probe into the connector to start taking temperatures and record results. The instrument is designed to provide over 2000 hours of operation with a standard 9V battery, features an on / off switch and low battery indicator.

*** Note pad not included**

Specifications

- Temperature Range: -100° to 1000°F
- Accuracy: ±2°F, ±0.5% of reading
- Resolution: 1°
- Ambient Operating Range: 32° to 122°F
- Easy to read display, 0.5” x 1.375” (13 mm x 35 mm)
- Power Source: 9V battery included, 2000 hours
- Heavy duty plastic clipboard
- Accepts any Type K probe
- WEEE marked and NIST traceable
- One year warranty

Packaging

- Individual Package Weight: 1 lb 14 oz. (855 g)
- Package Dimensions: 16” x 10.25” x 4.375” (406 mm x 260 mm x 111 mm)
- Package Cube: 0.42
- Unit per corrugated box (1)
